ABOUT THE COURSE AND ITS SCOPE

B.Tech CSE with IoT (Internet of Things) is a future-focused program crafted to equip students with comprehensive knowledge and hands-on skills in the design, development, and management of smart, connected systems. The curriculum dives deep into the world of IoT—covering embedded systems, sensor networks, cloud integration, data analytics, and wireless communication protocols. Students learn how to build intelligent environments and devices that seamlessly interact to improve efficiency, automation, and user experience. With real-world applications spanning across smart cities, industrial automation, healthcare, agriculture, transportation, and home automation, the program emphasizes both the software and hardware aspects of IoT. Graduates emerge with a strong foundation in connectivity, real-time data handling, and intelligent system integration—positioning them at the forefront of the digital revolution. As the world becomes increasingly interconnected, the demand for IoT professionals continues to surge, making this program a launchpad for impactful and cutting-edge careers.

B.TECH CSE WITH (INTERNET OF THINGS) AT CGC UNIVERSITY, MOHALI

The B.Tech Computer Science Engineering (CSE) program with a specialization in Internet of Things (IoT) at CGC University, Mohali is designed to equip students with in-depth expertise in one of the most transformative technologies of the modern era. The curriculum provides a strong foundation in embedded systems, sensor technologies, cloud computing, real-time data processing, and wireless communication, enabling students to build and manage intelligent, connected devices and environments. With an emphasis on practical learning, the program blends theoretical concepts with hands-on projects and industry exposure, preparing students to design scalable IoT solutions for real-world applications. From smart cities and healthcare to industrial automation and agriculture, the program opens doors to diverse and rapidly growing sectors. Graduates are well-prepared to lead the innovation wave in IoT, making this specialization a gateway to future-ready and high-impact careers.

ELIGIBILITY

Candidates must have passed 10+2 from a recognized board with Physics and Maths, securing at least 60% marks (55% for reserved categories) in these subjects combined with one of the following: Chemistry, Computer Science, Electronics, IT, Biology, Biotechnology, Technical Vocational Subject, Agriculture, Engineering Graphics, or Business Studies.
